

# Science

## Page 1 Atoms & Elements

Work in pairs.

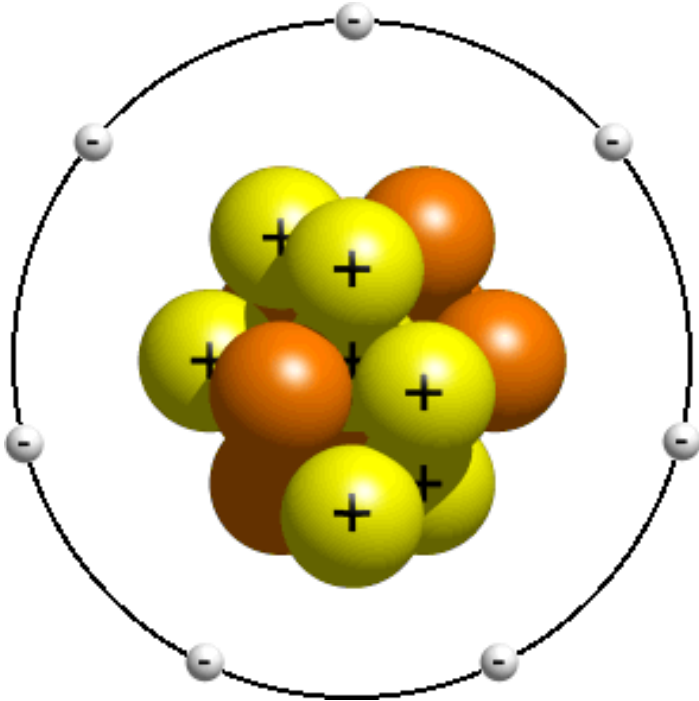

Write the following words on different flash cards:

- **Compound**
- **Atom**
- **Element**
- **Orbit**
- **Electrical charge**
- **Atom's nucleus**
- **Periodic table**
- **Shell**

Put the cards in a deck, upside down. Get one and explain the word without telling it. The other has to guess.

## Describe an atom; writing task

Try to describe this picture in pairs (in both notebooks):

*Use the following words:*

Atom – nucleus – Shell – protons – neutrons –  
electrons – positive electrical charge –  
negative electrical charge - orbit – mass –  
orange – yellow – white

# Periodic Table

Copy and finish:

Symbol –                      English name –                      Dutch name

<b>Zn</b>		
<b>S</b>		
	<b>Silicon</b>	
	<b>Potassium</b>	
		<b>Boor</b>
		<b>Fosfor</b>
<b>I</b>		
<b>Ag</b>		
	<b>Sodium</b>	
	<b>Copper</b>	
		<b>Seleen</b>
		<b>Kwik</b>
